Crossfield Curling Club Goes On Record for New Three-Sheet Rink

At a meeting held Thursday night it was decided to build a new Curling Rink, funds to be raised by public subscription. Committees to this end were appointed. If the work is carried out as well as the meeting the new project is assured.

At the Oliver Cafe, last Thursday night, April 9th, a meeting of the Curling Club was held, President Purvis in the chair.

The financial statement was read and discussed, and voted one of the best in years. All outstandings are paid and the Club has a nice balance in the Bank.

The next and main topic of the meeting was that of going on record to build a new rink, it being felt that the present building has long outlived its use.

The former meeting had suggested a raffle to raise funds, but on giving the matter further consideration, this idea was rejected, and that of raising funds by public subscription adopted instead.

Committees to carry out this scheme were appointed as follows: TRUSTEES: F. A. Purvis, chairman; Ed Meyers, and P. H. Fleming.

BUILDING: W. J. Wood, chairman; G. A. Williams, and Chas. Fox.

FINANCE: D. W. Carmichael, Chairman; H. Ballam; Ed Meyers; G. McCaskill; R. M. McCool, C. H. McMillan, and G. A. Williams.

Function of Committees

TRUSTEES: To represent the subscribers of units and others interested, financially, in the proposed new building, if and when completed.

Negotiate with the Village Council, re taking over and disposing of, to best advantage, the present building, if and when the Finance Committee have raised the necessary funds. Arrange new site and position of new building.

Confer with the officials of the Curling Club each year and arrive at reasonable rental so creditors may be paid off as quickly as possible.

Arrange for fire insurance on the building.

BUILDING COMMITTEE: Arrange with master carpenter and helper to erect new building. Confer regarding plans and make all arrangements for labour. Purchase material and pay all costs. In general, to use at best advantage, funds at their disposal in connection with erecting a three-sheet rink.

FINANCIAL COMMITTEE: Put on selling campaign to sell the units at \$25.00 or half units at \$12.50. All subscriptions under half units to be treated as donations. No interest will be paid on units. Time limit of campaign is June 15th.

Members not present who have been elected as above on any of the committees will accept this as official intimation.

The project is a good one and there is no reason why it should not be put over in good style, when one views the men entrusted with the scheme.

Relief Administration

The Provincial Government has advised the Village officials that a change in relief funds will go into effect this fall. In the inside page further details are given.

Board of Trade Hold Monthly Meeting

The first monthly meeting of the Board of Trade for 1936 was held in the Oliver Cafe, with President McCool in the chair.

CORRESPONDENCE

A letter from the Postal Authorities with regard to the closing of the local Post Office on Wednesdays, was brought to the attention of the Board, and after some lengthy discussion it was agreed to turn this matter over to the Public Affairs Committee for attention, they to obtain as quickly as possible the opinion of the people, both Urban and Rural, in this regard and bring in a report at a later date.

Several matters of interest were brought up by the Public Affairs Committee, of which the following are outstanding:

1. The improving of the north crossing from the C and E highway into Crossfield. A letter from the Provincial Inspector of Roads, Mr. Graham, was read in this connection, and the matter will be gone into in the near future.

2. Board of Trade signs, both the "Welcome" and Advertising signs were suggested to have repainted, and the committee was instructed as soon as funds were available to have the "Welcome" sign repainted. In regard to the Advertising sign, this matter to be discussed with the Advertisers.

3. Road signs to be placed on highway and in country.

4. Take up the matter with the new C.P.R. Superintendent in regard to having something done in connection with the plot of ground, belonging to the Railway, facing main street.

AGRICULTURAL: Chairman Wright stated that this Committee was going to arrange for a Field Day and also look into the matter of starting a Junior Grain Club.

SPORTS: Plans are being formed for the usual Sports Day July 1st stated G. A. Williams

ENTERTAINMENT: Chairman Currie reported the Committee was drawing up a schedule for the year, and arranging for outside speakers.

MEMBERSHIP: T. Tredaway stated; that a drive is going on right away for members and he hoped to report at the next meeting that his objective had been obtained.

SPEAKER: The speaker of the evening was Mr. O. E. Jones who took as his topic a Journey from

School Fair Annual Concert May's Ambitious Amateurs Delight Large Audience

The School Fair Concert programme follows; and amongst the galaxy of youthful Stars, it's impossible to state which shone the most brilliant, all did well and gave pleasure to their listeners. Each little Artist is deserving of great praise.

The following is the programme of the concert held on April 8th; Pianoforte Solo: Claire Metheral, Crossfield, room 3.

Recitation: Eileen May, Greenwood.

Sketch: The School Class, Audrey McLean, Ruby Lee, Lois Gordon, Alice Gilson, Lorraine Nichol, H. High, D. Gilson, G. Wood, and M. Hurt.

Cornet Duet: Jack and George Fleming, accompanied by Mrs. R. T. Amery, room 3.

Tap Dance: Clara Calvert and Ann Cameron, room 3.

Sketch: Tom Cumming and Dick May, Greenwood.

Recitation: Peter Taks, room 1.

Duet: Claire and Lethe Metheral, room 3.

Monologue: Winfred Bailey, Onell.

Duet: Nora Fleming and Edith Griffiths, room 2, accompanied by Mrs. R. T. Amery.

Recitation: Helen Hurt, room 1.

Song: Three Little Boys, Westhope.

Recitation: Elsie Mossop, room 2.

Song: Jean Smart, Onell.

Duet: Song and Guitar accompaniment, Westhope.

Recitation: Lloyd McCrimmon, Tany Bryn.

Chinese Drill: Four Little Tots, Westhope.

Dialogue: Harry Wigle and M. Dipple, Onell.

Recitation: Mary Griffiths, room 2.

Song: By Pete Knight the Second, (Ross Bills), Elba.

Musical Saw: A. Klitzke, Westhope.

Sketch: Four Girls, Glen Rock.

Recitation: Frances Reist, Westhope.

Recitation: Melva Chitwood, Glen Rock.

Sketch: The Long Ago Duet (in 3 acts), Glen Rock.

Crossfield through the United States from East to West. His address was educational, interesting and humorous, and was well received by those present.

Mr. F. Laut moved the vote of thanks at the close of the address.

Canadian Postmasters' Association

Postmasters and Patronage

A recent bill introduced by O. L. Boulanger, Liberal Member for Bellechasse, Que., for the purpose of removing the outside Civil Service, including most Dominion employees outside of Ottawa from the jurisdiction of the Civil Service Commission, was viewed with dismay by all Civil Servants but particularly by the country, village and small-town Postmasters. Under previous Governments this class of employee suffered severely, particularly in Quebec and the Maritime Provinces and even to a certain extent in the other Provinces also. Mr. Veniot, Postmaster General in the previous King Government set a very bad example and was followed by Mr. Sauve, Postmaster General in the Bennett Government, who, although he promised to abolish the spoils or patronage system, found the pressure from those who wanted jobs too great for him, and during his term of office he equalled, if not exceeded, the previous record set by Mr. Veniot.

Under these circumstances it was only natural that a change in Government again caused much perturbation amongst the Post Offices in Eastern Canada particularly and the Dominion Secretary of the Canadian Postmasters' Association, Mr. Charles D. Griffith, accompanied by Col. E. J. White, Postmaster of Bathurst, N.B., interviewed the Hon. J. C. Elliott very shortly after his appointment to the Cabinet. They were pleasantly surprised to find a new type of man holding the office of Postmaster General who had already refused to dismiss small country Postmasters wholesale without any charges being laid against them, or without the accused being given an opportunity of defending themselves against any political charges which might have been made by those desirous of obtaining their positions.

Since that time Mr. Elliott has gallantly carried on his fight with the result that very few Postmasters have resigned or been dismissed and their is a greater sense of security in the Postal Service today than has ever been known before.

If the Hon. Mr. Elliott can stick with his guns and withstand the pressure there is no doubt that he will have done a great act and his name will ever be remembered in the Postal Service, as the man who killed patronage. The Postal Service is, without doubt, the greatest business in Canada entering intimately into the lives of every citizen and the disrupting effect on this great business machine can readily be understood when over eight hundred Postmasters lost their positions after each change of Government and were replaced by inexperienced men.

Today's Thought

Life is like a mighty river
Rolling on from day to day;
Men are vessels launched upon it
Sometimes wrecked and cast away.
Then do your best for one another,
Making life a pleasant dream;
Help a worn and weary brother,
Pulling hard against the stream.

Chantecler CIGARETTE PAPERS None Finer Made

The Century Of Science

Research work now being carried on in the laboratories of the world devoted to industrial progress and advancement of scientific knowledge is unlocking vast reservoirs of hitherto hidden facts and data to such an extent that their practical application to man's needs and welfare is bound to profoundly change habits and modes of life and work in the future.

Old and well accepted theories in the realms of astronomy, chemistry, physics, medical sciences, biology and other fields of science are being shattered almost daily as a result of the work which is being carried on by silent, be-spectacled men and women in these research workshops and so rapidly are new discoveries being made and converted to the use of mankind that those who predict that the present century will go down in history as an era of scientific achievement are speaking with undisturbed authority.

In fact, the achievements of the first third of the present century are sufficient in themselves to substantiate the claim for such an assertion even if, for some unknown reason, the work in this field were to be brought to an abrupt halt now.

One does not have to search far to find reasons for this remarkable advance into the sphere of the hitherto unknown and to explain why so much that has remained hidden for centuries is now being revealed in so great abundance.

One of the reasons is the large sums of money which have been made available for the prosecution of such work by wealthy philanthropists. Another is the discovery by commercial organizations that it pays them to devote a percentage of their earnings to the conduct of research work to assist them in unearthing ways and means of improving their products and of reducing the costs of production to enable them to achieve a paramount place in their field or to achieve it. Another is the now well known fact that almost every new discovery, or the search for it, opens the door for another one and often enough paves the way for several more. Thus, the work is not only progressive but cumulative and in more than mathematical ratio, something like rolling up a snowball.

Still another reason is the fact that so frequently, a discovery in one field of endeavor results in the perfection of new equipment which makes it possible to delve deeper into the mysteries of some other scientific realm or some other class of activity.

And these do not exhaust the reasons. There are others referred to recently by Mrs. O. Lazarus. Writing in a recent issue of the Christian Science Monitor an article dealing with developments in the arena of natural science this author said:

"Natural science arose partly out of man's desire to conquer nature and partly from his insatiable curiosity. From the earliest times man had never been content to live by bread alone. It had that within it which impelled it to seek out the mysteries of the world around. It is this curiosity which has forced men to make instruments which have enabled him to sweep the recesses of the starry heavens; to delve among the rocks in order to read from them the history of the earth and those who have lived on it in ages past. In his eagerness he has even penetrated into the heart of matter and seen it dissolve into radiation."

The same writer sheds an interesting sidelight on the effect such work has on the minds of those who make new discoveries, when she says: "Every time he (the research worker) has forced open the locked doors in the Palace of Knowledge, he has become humbler, less certain of his at-one-time unshakable faith in the 'reality' of those things which his hands could touch and his eyes see."

It is unfortunate that in Canada sufficient recompense is not always given to the men and women who are devoting a lifetime to unlocking the mysteries of science for the benefit of the country and her people; at least, that is too often the case with those who are prosecuting their work under government auspices. As a result, more adequate remuneration sometimes proves too tempting and they are lured away south of the international boundary to the great loss of this country.

When the benefits which accrue to the country as a result of the development of a rust resistant wheat—to quote an illustration—are weighed in the balance against the remuneration these trained experts receive it is not surprising if better offers from elsewhere for their services are sometimes accepted.

Talked Through His Hat

New York Man Had Radio-Equipped Silk Topper

An announcer wearing an "electricified Easter bonnet", in the form of a radio-equipped silk hat, promaded with the Easter Sunday strollers in New York, describing the fashions and eavesdropping on conversations unknown to those on the sidewalks. The stunt provided a taste of a new portable microwave "station." The range of the silk-hat broadcaster is about a quarter of a mile.

The human hair grows at an average rate of five inches a year in a temperate climate.

CONSTIPATION STOPPED AT ONCE!

"Constipation troubled me for months. Nothing seemed to do any good until I tried Fruit-a-tives. They brought quick and complete relief," says Mr. Huddleston, Belleville, Ont. Fruit-a-tives are the discovery of a famous Canadian physician. He concentrated extracts of APPLES, ORANGES, FIGS, PRUNES and HERBS. The result is a natural remedy scientifically prepared for best results. Convenient—no sugar-coated tablet. Safe—do not contain harsh purgatives or habit-forming drugs. More than a laxative—Fruit-a-tives bring lasting relief. They tend to strengthen all organs of elimination. Their tonic effects help the entire system.

Fruit-a-tives
A HARMON, DICKSON & CO. PREPARATION

Enjoys Life At Goldfields

Well-Worth Trying Says Wife Of Resident Doctor

Completing her first season in one of the north's new mining camps, Mrs. E. N. Dunn, a bride of one year, says there is nothing like joy-riding in a dog sleigh.

The young woman, wife of Dr. E. N. Dunn, resident doctor at Goldfields, Sask., accompanied her husband to the Lake Athabasca mining field last fall.

During a brief stopover at Edmonton after a long aeroplane flight from the northern mining town, she said, "I enjoy the life very much. It's all very novel, and it's well worth trying."

Goldfields has a pleasant social life, she added. About 20 women and 300 men comprise the camp. Bridge, dancing and dog sleigh riding are in great favor. In addition she often travels with her husband.

Returns Show Increase
Return for the 1935 Christmas seal campaign to raise funds to fight tuberculosis was encouraging and final receipts were expected to show a 10 per cent. increase over 1934, the Canadian Tuberculosis Association announced. The association will hold its annual meeting at Vancouver, June 22, 23, 24.

Soviet workers are boring an oil well on the sea bottom in the vicinity of Baku. 2146

Going In For Ice Cream

London Is Preparing For Big Sale This Summer

Warm weather ice cream fashions are being determined at the Ice Cream and Dairy exhibition at the Crystal Palace, the London News-Chronicle remarks.

"This summer, it seems, we shall consume at least 50,000,000 gallons of ice cream, so that the rehearsal now in progress is thoroughly justified."

It will be bought from penny-in-the-slot machines, in special paper bags, in tubes of chocolate and in new waffle wafers, which make it look as if you get more for your penny than you actually do.

"And it will be better ice cream. The milk marketing board has arranged for ice cream manufacturers to buy milk at bulk wholesale prices. Milk powder from abroad has been widely used so far."

"The immense engineering industry that has grown in recent years to meet the needs of big milk distributive combines should give those now engaged in the milk prices inquiry some idea of where the money goes."

Richly Clad Mummy Found

Is Believed To Be Daughter Of Great Pharaoh Cheops

The sumptuously-clad mummy of a princess of the Fourth Dynasty (3733-3566 B.C.), believed to be the daughter of the great Pharaoh Cheops, who built the second pyramid, has been discovered by Egyptian archaeologists.

The mummy lay in a limestone sarcophagus, in an undisturbed tomb whose location was not revealed in the announcement of the find. Dressed in bridal raiment, the princess wore a golden diadem, two necklaces of golden beads, anklets and sandals.

A gold-plated copper belt circled her waist and the fingers of her left hand were encased in gold as well, it was said.

Prof. Selim Hassan of Cairo University, directed the excavations which resulted in the discovery. He said the tomb apparently had never been pillaged by marauders, like most monuments of ancient Egypt.

Welsh Discovered America

Landed 300 Years Before Columbus Made His Appearance

The legend of the white Indian, and the claim that America was discovered by a Welshman, were revived at Cardiff, Wales, recently during a Welsh book festival, when books relating to the part played by Wales in world history were exhibited.

Legend has it that the American continent was discovered by Prince Madoc in the twelfth century, 300 years before Columbus. Madoc set sail from North Wales across the Atlantic with a fleet of 13 ships and never returned.

It is declared that he landed near the mouth of the Mississippi and worked his way inland. His men made friends with the Indians, and ultimately formed themselves into a tribe of white Indians.

Broadcast In Eskimo

Bishop Of The Arctic Told To Charges In The North

A bishop's voice rang through the air for thousands of miles on a recent Saturday to carry a greeting in Eskimo to slant-eyed friends who sat before radio sets from the sub-Arctic fringe to Oache Peninsula.

Rt. Rev. A. L. Fleming, Bishop of the Arctic, whose Diocese extends across the great expanse of winter's twilight land, spoke in English and Eskimo to his friends and charges in the north, broadcasting from Ottawa on the Canadian Radio Commission's Northern Mission program.

Likes Exploring Job

Ellsworth Hopes To Do More Of It

In Antarctica, Lincoln Ellsworth, who recently completed an air journey across the Antarctic continent, said he would like to explore the Australian desert by camel. He had no definite plans, however, for the venture.

Ellsworth said in an interview there was a 100-year job of exploring still to be done in the Antarctic and he expected to do some of it.

The explorer landed in Los Angeles in March after an absence of almost a year.

John D. Rockefeller says that the first money he ever earned was made by raising turkeys when he was seven years old. His mother gave him curds from the milk to feed them.

Do You Ever Wonder

Whether the "Pain" Remedy You Use is SAFE?

Ask Your Doctor and Find Out

Don't Entrust Your Own or Your Family's Well-Being to Unknown Preparations

THE person to ask whether the preparation you or your family are taking for the relief of headaches is SAFE to use regularly is your family doctor. Ask him particularly about "ASPIRIN."

He will tell you that before the discovery of "Aspirin" most "pain" remedies were advised against by physicians as bad for the stomach and, often, for the heart. Which is food for thought if you seek quick, safe relief.

Scientists rate "Aspirin" among the fastest methods yet discovered for the relief of headaches and the pains of rheumatism, neuritis and neuralgia. And the experience of millions of users has proved it safe for the average person to use regularly. In your own interest remember this.

"Aspirin" Tablets are made in Canada. "Aspirin" is the registered trademark of the Bayer Company, Limited. Look for the name Bayer in the form of a cross on every tablet.

Demanded and Get "ASPIRIN"

New Electric Trains

One Of Longest Electric Trains Will Be Completed Next Summer

Rapid progress with the electrification of the Southern Railway's main line to Portsmouth harbor makes it likely that the whole scheme, costing nearly \$15,000,000, will be completed by July, 1937.

Some 95 route miles, corresponding to 242 single track miles, are to be converted, and when finished the 74 miles from London to Portsmouth will be one of the longest electric trains in Britain.

The present longest stretch is the London to Eastbourne, Hastings and Ore section opened last July.

Forty-eight new four-coach motor units, 19 of which will be provided with kitchen-cars, are among the new rolling stock being constructed.

Tourists Will See Things

Ferry Sound, Ontario, To Have Totem Pole Traffic Light

The eyes of a moose, alternately blinking red and green from atop a mighty totem pole, will help direct tourist traffic through Ferry Sound, Ontario, this year. Plans for the totem pole traffic light were explained to the Ontario Good Roads convention by J. M. Daly, Indian agent from Ferry Sound.

The pole will be a vast affair, facing the highway, and the images carved on it, from top to bottom, will include the moose, a bear, a deer, two geese, duck, an early Canadian voyager in a canoe, a tope, a school house, and a church. The eyes of the moose, co-ordinated with traffic signals, will be the only animated portion.

There are approximately a half million different sorts of living creatures on the earth. About three-fourths of this number are insects.

European red ants attack other species of ants and carry off the workers as slaves.

Trying Old Experiment

New Jersey Doctor To Use Surgical Grafting Principle

Sixteen-year-old John Seeley's hope for artificial restoration of the arms he lost last November under the wheels of a train at Nutley, New Jersey, rested today on application of a 65-year-old surgical grafting principle.

A Newark orthopedic surgeon, starting with an operation at Beth Israel Hospital, expects to apply the discovery of an Italian physician, Vanghetti, about 1870, using muscle grafts to connect artificial limbs.

The surgeon, who has asked his name be withheld, has been engaged by the crippled children's committee of the Nutley Elks Lodge. As he described the operation, a flap of the patient's skin is drawn into a tube and inserted under the muscle. This operation will be performed twice on each of the stumps of Seeley's arms.

When the tissues have healed, he said, cinchastic arms would be attached to the flaps. The artificial arms and fingers then would be operated with the flexing of the muscles.

New Device Invented

Artificial Ear Gives Effect Of Sound On Human System

An artificial ear, for the exact measurement of sound, and its effect on the human system, has been invented by an electrical firm at Prague. It is to be used by the Czechoslovak Ministry of Health in its investigations into the noise problem. Previous sound-measuring devices are stated either to have been too subjective, which has led to inaccurate results being obtained and difficulty in calculation, or they have not measured the true effect of various sounds on the delicate mechanism of the human ear. The new device, it is claimed, represents exactly, in an easily measurable form, the way in which sound affects the ear of a living person.

Ships Without Funnels

Prediction Made That Smoke Will Be Discharged Into Sea

Funnelsless ocean liners in the near future was a prediction made by John Johnson, chief engineer of a Canadian Pacific Steamship, Ltd., addressing the Institution of Mechanical Engineers at London, England, recently.

Speaking on the future of steam propulsion, Mr. Johnson said that smoke and gases from the funnels would be used until they were almost cold, the heat extracted from them being put to work.

The gases would then be washed with sea water, and, when clean, they would be discharged into the sea just above the water level.

His Only Worry

The doctors had great difficulty in getting a negro soldier, who had been badly wounded by shell-fire, to take an anaesthetic. He seemed worried about something, and urged them to get to work without an anaesthetic, as he wanted to watch them.

At last they got him to take the chloroform, and all went well until the operation was over.

The stitching was just being begun when he jerked himself back to consciousness and said: "Doctor, don't make a mistake. Don't stitch me with white thread."

Animal Day In China

In observance of Animal Day in China recently not an animal was killed in the country for 24 hours. All slaughter houses remained open but not one head of live stock was taken in and cities refused to do away with strays in pounds.

The Society for the Prevention of Cruelty to Animals gave open-air dramatic and oratorical messages on kindness to dumb beasts.

Keeps each ROYAL YEAST CAKE FULL STRENGTH

Use Royal Yeast Cakes and Royal Sponge Recipes for these tempting breads...

Each Cake of Royal Yeast will retain its absolute freshness for days—weeks! A special air-tight wrapping assures full leavening power and uniform results every time. Between Ourselves

Relief

The Village Council has been informed by the Department at Edmonton, that different steps will be taken this fall in connection with giving out relief. Therefore it behooves everyone who has been on relief up until now, to lay past for themselves a nest egg from work done during the summer, as the prevailing rates next winter will be greatly reduced.

Village Matters

We would draw to the attention of the Council the deplorable condition of the crossings of the streets in our Village and suggest that this matter of cleaning them up be taken in hand at once. Another matter that might be well taken in hand right away before some accident occurs is that of having a man or men go over the wooden sidewalks, nailing down any loose planks, and driving home protruding nails. The sidewalk past the park and along Limit Avenue is certainly in need of having loose protruding nails attended to.

Quite a disappointment was expressed last Thursday when the showing of the advertised Motion Picture was not carried through, and blame has been placed in different ways as to the reason of cancellation. The Chronicle learns on good authority that the Sponsor was asked to pay the prevailing rates as set out in the Village Bylaws in connection with Entertainment Tax, but this appeared to be too high, and without further discussion, the sponsor left in high dudgeon, taking down his bills and shaking the dust of Crossfield off his feet. That readers is the true picture, contrary as it may be, to what you have heard. We ourselves were also accused of having refused to run any advertisement, and all we need say we are in business to make a lawful living, and also being Scotch, we are not passing up anything that means business and legitimate earnings. Road Shows, Movies, or what have you must agree to abide by the Village by-laws, and if they have any sound argument to put against the Village Fathers are willing to co-operate. All merchants and people doing business in town, pay business taxes, why not outsiders.

Local Gatherings

It has been said that the four things in this world that are not understandable are:

- The way of a Ship at sea,
- The way of an Eagle in the air,
- The way of a Serpent on a rock,
- and
- The way of a Man with a Maid.

Well, we should like to add one more and that is "Why, just as soon as a musical number is announced at local concerts or gatherings this is a sign for the younger fry to engage in murmuring compliments and others to talk audibly to the annoyance of their neighbours who are interested in listening to the artists.

Congratulations

To the farmers of this District who have again helped put Crossfield on the map, we say, congratulations each one, may your fame never grow less, Messrs. Russell, Leask, Robertson, and Collicutt. We hope the Board of Trade went overlook this, and draw the attention of the Vice Presidents, to this prize winning, and notoriety for the District.

Advertising Pays.

Local Exhibitors Excellent Showing Calgary Spring Fair

The local Exhibitors from the Crossfield District did exceedingly well at the Calgary Spring Show, and to Messrs. G. Leask, W. Russell, Jno. Robertson and F. Collicutt congratulations are extended.

With the famous Clydesdale Stallion, "Derwent Sensation", W. Russell took first place in the Champion Class and first place in the Grand Champion Class. This is the 8th time Derwent Sensation has taken the Champion Class and the 6th time for Grand Champion.

G. Leask did equally well, winning 8 prizes with his exhibits, they are as follows;

1st prize for 4-horse team; 1st prize for 6-horse team; 2nd and 4th prize in 1935 heavy colt class; 3rd prize in the team class; 4th and 5th prizes Agriculture and Halter class; 5th in Heavy Draft Halter class; and 5th in Heavy Draft team class.

Frank Collicutt was also to the fore winning several prizes, his entire exhibits were sold.

John Robertson of Dog Pound took 3rd prize in the Aged Stallion class.

Once again the fair name of our District is in the Public eye, through these Exhibitors, may they have continued success in other Fairs to come.

Daughters of the Rebekahs

Monday evening, April 13, was Installation night at the local Lodge, Sister Assembly Warden Mae Fox being Installation Officer, assisted by Thompson, Laut, Hughes, McLeod and O'Neil.

The following officers were installed:
 Sister C. Pogue, Noble Grand
 " M. Green, Vice Grand
 " F. Willis, Secretary
 " E. Richardson, Financial Secy
 " A. Ableman, Treasurer.

A social evening followed the ceremony.

Married

At Calgary, on Wednesday, April 8th, at the residence of the Rev. Brown, James Arthur Ralph Sackett was united in marriage to Rachel Christina Goudie. The couple will take up residence on the groom's farm at Cheadle, Alta.

Other Waves By Osmar

Osar will be glad to answer your Radio Questions. Address him in care of the Chronicle.

Round the World by Short-Wave

A large majority of short-wave fans derive a lot of entertainment from listening to foreign amateurs on the 14 megacycle band. They are balked, however, when it comes to identifying countries heard, through lack of knowledge of the call letters assigned in each country. Following is a list of foreign countries with their amateur call prefixes: Australia, VK; Holland, PAO; Belgium, ON; Cuba, CO; Colombia, HJ; Canada, VE; Newfoundland, VO; Costa Rica, TI; Panama, HP; Porto Rico, K4; Spain, EA; Portugal, CT; Argentina, LU; Mexico, XIN; England, G; Norway, LA; Ecuador, HC and Haiti HH.

One of the pleasing features of the "D" stations at Berlin is the occasional transmission of Bavarian folk music. Sprightly in character and pleasing to the ear, the tunes provoke images of gay native dances which have enjoyed hundreds of years of popularity in this quaint country.

The owner of an all-wave radio possesses the key to world travel as no creator of magic carpet stories ever dreamed possible. By tuning to short-waves you can hear news dispatches broadcast in English from Berlin, Paris, London and Madrid. Just a slight movement of the control knob transports the listener from Berlin to London; another movement, just as slight, and you are in Paris. All of these stations are noted for the clearness with which they are received in this country, especially during the evening hours. The variety of their entertainment is unexcelled. An evening spent with them yields symphony music, variety programs, educational discussions, dance music, religious discourses and many other interesting features.

The American hour, broadcast from Station 2RO, at Rome on 9.64 megacycles is now on the air from 6 to 7:30 p.m., E.S.T. on Mondays, Wednesdays and Fridays. This program has found favor with American listeners, not alone for its delightful musical presentations but because it is instructive as well. Lessons in Italian are distinctive features of the transmissions.

ROYAL ASSENT GIVEN TO BILLS BEFORE RECESS

Ottawa.—Parliament started a 12-day Easter recess after Chief Justice Duff gave royal assent to the accumulated legislation passed through both houses.

In a last-minute spurt, the government bill to establish a national employment commission was rushed through the house and senate, giving the administration free scope during the adjournment to make necessary appointments and start it going.

Left among unfinished business was the government's relief bill which, among other provisions, would enable the Dominion to sign direct relief agreements with the provinces. The agreements lapsed March 31, the end of the fiscal year, and payments which were increased 75 per cent for the winter months were cut 15 per cent. In April, in the meantime, it is assumed, payments will continue from month to month until new agreements are negotiated but the rates have not been disclosed.

A supply bill of \$51,167,000, representing the supplementary estimates for the year ending in March, went through both houses.

The most important of the bills receiving royal assent was the one ratifying the Canadian-American trade treaty.

Premier King told the house practically all important legislation has been presented to the house but he was unable to say definitely when the budget will come down. It has been forecast for the first week in May.

The house has been in session slightly more than two months and it probably will last into June, depending largely on the budget and the attitude of the opposition toward the government bill restoring a board of directors for the Canadian National Railways.

Another bill that received royal assent was one to distribute \$5,500,000 among western farmers as a result of 1930 pool operations, both wheat and coarse grains. It looked earlier in the day as if it would not be included on the assent list but the house accepted senate amendments and all was serene. Distribution of the money now is only a matter of time.

Wheat Stocks Sold

Board Disposes Of 5,000,000 Bushels No. 2 Northern

Winnipeg.—All stocks of old crop No. 2 Northern wheat held by the Canadian wheat board in eastern position were believed disposed of when the board sold 5,000,000 bushels of this grade to export interests.

It was emphasized, however, that the sale, the largest in the cash grain market in some time, did not mean the wheat had been sold for movement out of the Dominion. It represented only a change in ownership, officials said.

Traders on the Winnipeg Grain Exchange were of the opinion there was a prospective demand for the wheat and that exporters were getting into a position to meet the demand. They expected the grain would be exported as soon as shipping opens.

Will Investigate Charges

League To Probe Report That Italy Uses Poison Gas

Geneva.—The League of Nations' "Committee of 13" appointed a sub-committee of jurists to investigate charges that Italy was using poison gas in Ethiopia.

At the same time, the Committee of 13—which is made up of every member of the league council except Italy—empowered its President, Salvador De Madariaga, of Spain, to try to learn Premier Mussolini's terms for making peace.

He was instructed to talk to Baron Pompeo Aloisi, the Italian delegate to the League, on his arrival at Geneva.

Anthony Eden, foreign secretary of Britain, gave the Committee of 13 a specific list of alleged offences on which Italian troops used poison gas.

Receive Peace Fellowship

Montreal.—John T. Humphrey, recently appointed lecturer on the staff of McGill University's faculty of law, has been awarded a \$2,000 fellowship by the Carnegie endowment for international peace. He will Paris next year, returning in September, 1937.

Defence Of India

Field Marshal Chetwode Says It Would Be Madness To Take Risks

London.—In considering the defence of India it would be madness to take risks, declared Field Marshal Sir Philip Chetwode in addressing the East India association. Sir Philip has just completed a five-year term as commander-in-chief of the army in India.

"The Indian frontier," the field marshal said, "is vital, for it is within touch of the Russian menace which advances and recedes according to the state of the rest of the world and Russian politics."

"Nobody now imagines the likelihood of war between the British Empire and Russia, but as was seen in the last year, international situations alter rapidly. The Russians have the biggest and possibly the best equipped army and air force in the world."

British War Film

Has Been Temporarily Banned By The Movie Censor

London.—A film depicting the horrors of war was shown privately here after it had been banned for the time being at least by the Marquess of Crewe, movie censor.

Beside actual warfare scenes, the film gives the views on war of the average Englishman, ranging from business to chivalry. It ends by appealing to the public to intervene with their respective parliaments and obtain their pledge always to vote against war. Suppression of the film caused much criticism. H. G. Wells told newspapermen "it would be outrageous if a film of such public importance were suppressed."

In the face of criticism, Lord Crewe has decided to submit the film to the ministry of war for its approval or rejection.

Further Discussions Likely

Finance Minister Plans Conference With Governments Of West

Ottawa.—Both Finance Minister Dunning and Premier T. D. Pattullo of British Columbia were non-committal after their conversations on financial questions. It was intimated no definite steps would be taken with respect to the problem of Dominion-provincial financial relations until there had been further discussions between the finance minister and governments of the western provinces.

Such conferences will have to await the prorogation of provincial legislatures. Mr. Dunning said, and no definite plans had been made. In the meantime the minister has been in communication with provincial premiers.

Cattle Must Be Treated

Announcement Is Made Of New Ruling On Exports

Ottawa.—Cattle exported from Canada to England, Wales and Scotland between March 15 and June 30 each year must be treated with a preparation which will reduce the hazard of introducing the warble fly, according to an announcement issued here by the department of agriculture.

Canadian cattle for export to the British Isles will be treated by officials of the health of animals branch of the agriculture department or under official supervision. Treatment will be applied at the time the cattle are tagged at the shipping or export point. A certificate will be issued declaring the cattle have been treated.

Civil List Completed

Committee Submits Report On Provision For Royal Family

London.—The select committee appointed by the House of Commons to decide the amount of the king's civil list has completed its deliberations and now will report to the house.

A bill will be founded on the report, providing for the civil list of the king, Queen Mary, the Duke and Duchess of York, and other members of the royal family. It will also provide for the contingency of the king's marriage.

Figures arrived at by the committee are being kept a close secret.

Italy Enters Protest

Geneva.—A protest against the alleged bombardment of Italian Red Cross ambulances by Ethiopian artillery was received from the Italian government by Joseph Avenol, secretary-general of the League of Nations.

Spain Profits By Sanctions

Supplies Canada With Goods Formerly Imported From Italy

Toronto.—League of Nations economic sanctions against Italy have been effective as far as Canada's business with Italy is concerned, a report of the committee on import and export trade of the Ontario Retail Grocers' Association said.

The report said there had been a cessation of Canadian imports from Italy of olive oil, anchovies, shelled pistachio nuts, shelled almonds, filberts in the shell, sorrento walnuts, lemons, limes and maraschino cherries.

The sanctions have been of considerable benefit to Spain, which now supplies most of the articles mentioned above.

FRENCH TROOPS STAND GUARD ON EASTERN BORDER

Paris.—The French government has ordered 175,000 troops—about half of the country's peace-time army—held under the colors until further and April 15. Many of them receive notice pending outcome of negotiations to settle the Rhineland crisis.

The order, announced in a decree signed by War Minister Gen. Louis Felix Maurin, applies to troops whose term of service would ordinarily expire on April 15. Many of them are stationed in the steel-and-concrete Maginot defence line on the eastern border, fully manned since Chancellor Adolf Hitler's armed strident into the Rhineland. France's peace-time army is about 375,000 men.

The number of conscripts available to France during 1936, 1937 and 1938—the "lean years" resulting from the low birthrate during the war years of 1918, 1917 and 1918—is far below the previous averages.

The move was understood to be linked with partial mobilization moves considered by the French government during the week prior to the Rhineland occupation in March, following confidential reports from Andre Francois-Poncet, French ambassador at Berlin.

It was asserted that the Maginot line can only be considered fully effective when it is manned by thoroughly trained men. Several months are required before the men become familiarized with the numerous military intricacies of the subterranean and other forts of the defence bulwark.

A large number of French troops were immediately despatched to eastern frontier towns and villages following the Rhineland coup. These moves would have been rendered inefficient by the withdrawal of 175,000 troops on April 15, military experts said.

The move, it was said, is designed to satisfy French security demands and to uphold France's prestige before Europe during the current negotiations.

Ask Higher Pay

Edmonton.—Renewing requests for higher pay and increased privileges in the provincial relief camps, a delegation of seven relief camp workers arrived here to seek an interview with government officials and, if possible, with Hon. W. W. Cross, minister in charge of relief.

WHEN SARRAUT DEFIED HITLER

M. Albert Sarraut, Prime Minister of France, is shown at his desk when he broadcast a speech to the nation following Hitler's renitization of the Rhineland. During the broadcast, M. Sarraut stated that France was determined not to overlook Germany's breach of the Locarno Treaty, and rejected with scorn Hitler's offer of a new pact to replace the Locarno Pact.

AMY JOHNSON MOLLISON

Who smashed the undercarriage of her plane in landing at Colomb-Bechar, Morocco, while attempting to better the flight record between England and South Africa.

May Call At Halifax

Nova Scotians Likely To See Liner

Halifax.—Great Britain's bid for the "blue ribbon" of the Atlantic, the new liner Queen Mary, may visit Nova Scotia this summer.

"The government of Nova Scotia has been endeavoring for months to have the Queen Mary call at Halifax in order that the people of this province may have an opportunity of viewing the world's premier liner," Hon. A. S. MacMillan, minister of highways, said in a statement.

"The information we have at present is that while a cruise to Halifax during her early voyage will not be possible, there is a distinct possibility that later in the season this will be arranged."

The 80,000-ton liner built by the Cunard White Star Line will attempt to wrest the supremacy of the Atlantic from the French liner Normandie on May 27 when she starts her dash across the ocean from Southampton to New York.

Late Seeding In Alberta

But Crop Yield Is Not Likely To Be Affected

Calgary.—Farmers of Alberta faced the prospect of a late seeding season, possibly the latest in 10 years, particularly in central and northern Alberta, according to a survey made by local agriculturists. There need be no great apprehension yet, however, regarding the possible crop yield, they said.

In many areas fields were under deep snow and it will be many days before the land is fit to work. Warmer weather, however, brought promise of snow-cleared fields.

Last year at April 30 eight per cent of the land had been seeded and the 10-year average at April 30 was 35 per cent. In 1928, one of Alberta's best crop years, only six per cent was seeded by April 30.

Tenders Resignation

Victoria.—Ill health has caused Lieutenant-Governor J. W. Fordham Johnson to tender to the British Columbia government his resignation which has been accepted by Premier Pattullo. It was announced at Government House. The resignation is to take effect at the end of April, three months before the Lieutenant-Governor's term would normally expire.

Coronation Date

Will Be Proclaimed In London With Much Ceremony

London.—The date in May, 1937, upon which the coronation of King Edward will take place will be proclaimed next month with much the same ceremony as attended the proclamation of His Majesty upon his accession to the throne last January.

Heralds and pursuivants will attend the great officers of the College of Arms, who will make the announcement at the same historic four points in London from which the accession proclamation was delivered. These are St. James' palace, Charing Cross, Temple Bar and the Royal Exchange.

The actual date will probably be announced in the House of Commons by Prime Minister Baldwin on the same day as the Duke of Norfolk, in his capacity as earl marshal, issues the proclamation.

Ends First Session

Social Credit Government Prorogued After Nine-Week Sitting

Edmonton.—First session of the world's first Social Credit government came to a close April 7 when the Alberta house was prorogued by Hon. W. L. Walsh, lieutenant-governor.

In session since February 6, a period of practically nine weeks, the members of the eighth legislature added 102 new statutes to the provincial list at this first session.

PLAN TO ENLARGE NEWS SERVICE OVER THE RADIO

Ottawa.—Establishment of facilities whereby radio listeners may be given more frequent Canadian news broadcasts was recommended to the parliamentary committee on radio by a delegation representing the radio committee of the Canadian Press.

In a brief which declared news services on the air brought into Canada direct from United States lacked British character and were often inaccurate and misleading, three alternative suggestions were laid before the committee as a means of increasing the present single truly Canadian coast-to-coast news broadcast to three or four.

W. B. Preston, managing director of the Brantford, Ontario, and president of the Canadian Press, told the committee if facilities were provided for daytime national network broadcasting the Canadian Press would furnish the news bulletins free, as it now does the single nightly broadcast.

Because of expense involved the coast-to-coast network of the Canadian radio commission operates only during evening hours. Members of the committee, who displayed a keen interest in the subject agreed that increased broadcasts of a Canadian and British character were desirable. The matter will be discussed further when the committee meets again after the Easter parliamentary recess.

E. Norman Smith, vice-president of the Ottawa Journal and honorary president of the Canadian Press, and J. F. B. Livesay, Toronto, general manager, joined with Mr. Preston in submitting the argument.

The commonsense committee was assured there was no desire to prohibit or censor news brought in from outside Canada for rebroadcast in the Dominion, but it was felt desirable to provide an adequate Canadian news service over the air as an offsetting feature.

Not all foreign news broadcasts were objectionable and some of them were admirable, the committee was told, but they were not Canadian or British, and in many cases were inaccurate.

Mr. Smith declared newspaper publishers knew better than any others the news broadcasts from other countries were often inaccurate and misleading. Editors were constantly being called by telephone to confirm news heard on the air that was absolutely without foundation in fact.

Mr. Livesay said the late war had shown the most effective form of propaganda lay in selection of news. He gave an instance of how recently a statement by Prime Minister Baldwin had been altered in a news program to present a meaning altogether different to that given in the original statement.

The delegation also asked that the clause protecting the Canadian Press and Canadian newspapers from theft of news for broadcasting purposes be continued.

SECURITY PLAN OF FRANCE SAID NOT ACCEPTABLE

London.—France's all-Europe security plan received a lukewarm reception in the press. Newspapers generally urged the British government to resume its efforts to bring the powers together for the purpose of devising a European settlement.

The French proposals, said the Daily Telegraph, "in part are wholly impracticable. Recent experience in international complications made it clear that a police force contributed to by all nations is a motion that has only the most remote relation to actual conditions in Europe. The French reply throws doubt on the British government's task of exploring the path to negotiation. Until negotiations can be begun the several visions of a pacified Europe are as mocking mirages."

The Daily Herald said the immediate problem was to prepare the way for a collective effort to incorporate the French and German plans, with such other proposals as other nations may contribute, "into a practical, generally acceptable whole."

The Times said "doubts will be felt whether all the French suggestions are practicable. Europe can hardly be described as ripe, or ready for the large renunciations of sovereignty demanded, but the suggestions as a whole constitute an elaborate, far-reaching plan not to be met with purely destructive criticism, but to be examined together with the German proposals. At the present moment, however, the immediate purpose must be to clear away the obstacles in the way of discussion of a permanent organization for ordered peace."

Church Hospital Burned

Nurses Played Heroic Part In Fire Whose Cause At Akiavik

Akiavik, N.W.T.—Hospital of the Missionary Society of the Church of England in Canada was destroyed by fire here. Patients housed in the building were removed safely to other sections of the settlement. There was no loss of life.

Three Toronto-trained nurses played a heroic part in rescuing all the patients. Miss M. A. Solomon, Toronto, was in charge of the hospital. Miss Ruth Hamilton, of Peterborough, and Miss Hutchison, of Hamilton, were the other graduate nurses at the hospital.

The original eight-bed hospital was given by Col. and Mrs. Leonard of St. Catharines, Ont. It was electrically equipped and had been enlarged in 1931 to 18 beds, with a new X-ray machine and an enlarged operating theatre. Damage was estimated at over \$25,000.

Family Has No Country

Will Not Be Accepted By Czechoslovakia Or Poland

Praha, Czechoslovakia.—A father, mother and their small child huddled together in an old trench in Usok Pass of the Carpathian mountains, praying for some country to take them in.

They were ejected by Poland on ground that they are Czechs, but Czechoslovakia refused to receive them, claiming they are Poles.

So the little family, caught in a snowstorm, had to take refuge in the trench in "No Man's Land" along the border. Their borderline home is a remnant of an Austro-Russian battle during the Great War.

Imperial Conference Likely

May Possibly Be Held At Time Of Coronation

London.—The Marquess of Hartington, parliamentary undersecretary for the Dominion, said in the House of Commons that communications were now passing between the government and the governments of the Dominions concerning the possibility of arranging an imperial conference in London at the time of the coronation of King Edward.

His Majesty's coronation will take place in May, 1937.

Held Shortest Sitting

London.—The House of Lords has made history by holding the shortest sitting ever in its own record short sittings. The Lord Chancellor, Viscount Halifax, took his seat on the woolsack at 4:15 p.m. The upper house rose at 5:16 p.m. after adopting the report stage of a bill without amendment.

FLEMING'S FOLLY

—BY—
LAWRENCE A. KEATING

SYNOPSIS

The story opens with Link Fleming addressing a meeting of Boone County cattlemen, called together with the object of forming an irrigation company.

The meeting terminates, but Buzz Hamilton and his sister, Helen, Link and Klugo stay behind and Helen asks Fleming questions about his irrigation plan. This angers Buzz, who accuses Fleming of trying to influence his sister and, as he asserts, ruin his "spread". Buzz shoots at Fleming in an uncontrollable fit of anger, but Buster Townsend, Link's foreman, is shot in the stomach, and Fleming is uninjured. Buzz is arrested and sentenced to three years' imprisonment.

Helen and Fleming form a partnership to provide irrigation for their own properties.

Fleming goes home and studies the plans drawn by Torney to learn whether they were adapted to a smaller scheme suitable for his and Helen's land, and is satisfied it could be done. Feeling cold, he lights the fire and there is an explosion that wrecks the house, burns it and the plans and renders Link unconscious. He is rescued from the blaze by an employee.

Helen and Link ride to Rawhide for supplies and to obtain funds to carry out the dam project. They meet Roper, who greets Helen and offers to shop with her. Link goes to see the Sheriff, who tells him Buzz Hamilton has been paroled, and would arrive on the incoming stage, but that he thinks Link has made a mistake in getting Buzz released.

Buzz Hamilton arrives back in Rawhide while Fleming and Helen are in the bank getting a loan for payment of wages for work on the dam. Roper Klugo and Jackpot Mel meet him and he goes into the saloon with them. By the time his sister and Link come from the bank, Buzz has had several drinks. Roper has distorted the facts concerning the dam proposal to Buzz, making it appear that Link was trying to ruin him. Buzz, inflamed with liquor and anger, tries to throttle Fleming, but is thrown to the floor. Then Helen appears and tells Fleming she has been robbed of the \$800 they had obtained from the bank.

(Now Go On With The Story)

CHAPTER XL—Continued

"Link," she added on sudden impulse, "do you think this dam is going to bankrupt us?"

Something in her worried tone made Fleming eager to go to any extreme to safeguard Helen and her property. "We'll come through," he said with confidence he did not quite feel. "We still have our steers to sell, and once we get cash for 'em

the far distant peaks of the mountain range. But Fleming, with a look of cheerful confidence, strode to the ranch house stoop, the men following sullenly at his heels. On this sight eminence he turned to address them.

"Orliss and Kevin told me how you feel, and I don't blame you, boys. But don't think I'm not in good faith about this wages proposition. I want—"

"To hell with good faith!" broke in Gyp Vallie. "Give us hard cash!" Plainly he was foremost in stirring up dissension. Buster Townsend's fists doubled and he seemed about to challenge Gyp until with a slight shake of the head Link warned him. "What the heck're you talkin' about? You don't work on this dam any more. I fired you this mornin' for a lazy, good-for-nothin' loafer!"

The man's powerful chest heaved. "I'm owed wages!" he roared. "An' by gosh, I mean to get my rights!" "You've owed a good deal in the nose," Buster retorted belligerently. "Yuh tried to bust a sluice gate on us, yuh hound! Lettin' it drop 20 feet. I've a good mind to—"

"Hold on, boys!" It was news that Vallie had been discharged, that he had attempted sabotage. But Fleming disregarded this point for the moment. "I started to say," he proceeded calmly, "that Miss Hamilton and I went to Rawhide this afternoon to get your payroll."

"But didn't get it, eh?" guessed a man named Ferguson. "We got it, all right—eight hundred dollars. But I had to stay in town to meet Buzz Hamilton. You see, I got Buzz paroled to me from prison as a surprise for his sister. I gave her the money and she started off here as fast as her horse could travel."

"Boys," he said soberly, "I'm shore sorry. Helen—Miss Hamilton—got held up. Some dirty skunk wearin' a bandana mask, stepped out of the trees at Iron Spring, and stopped her at the point of a gun. She put up a game fight but of course he was stronger. He grabbed your eight hundred and got away!"

"Held up?" "Got robbed?" "Then our money's gone!" These and similar exclamations broke from the crowd of irrigation dam workers. Instantly Link perceived that by phrasing it as their eight hundred dollars, he had scored a point.

"Yes, she got robbed and pretty much bruised up, fightin' for your rights. Sheriff Stephen is trailin' the cuss right now, and there's a good chance of nabbin' him."

"He'll sure get the limit for holdin' up a woman an' taking money earned by the sweat of your brow!"

An inspiration prompted him to stride down to Sam Walters. "Sam, I'll pay every cent I owe you if you give me time. Nobody ever said Link Fleming went back on his word. On account of that robbery I'm askin' you to trust me awhile longer."

Plainly taken back by this daring candor, Sam gnawed reflectively at a mustache end. "Yuh liable to be busted?"

"Whoever spread that story lied!" The workman hesitated, conscious of all eyes on him. Then he saw Fleming's hand outstretched, and he grasped it. "Pay me up, Link, son's yuh can. I'll wait."

His pulse speeded in triumph. Without turning from the spot, he addressed Chunky Hokanson. "Are you willing to trust me after a piece of hard luck I couldn't help?"

"The other's eyes wavered. "Shore, Link," and he turned away. But Gyp Vallie with Ferguson at his side interceded before Fleming could speak to the next man. "Yuh can pull that on those guys," Gyp sneered roughly, "but yuh can't soft soap me. I want my money an' I want it now!"

Townsend shouldered his way close, fearing trouble. "Buster," he demanded the Star Loop owner incisively, "are you sure about this houbly trying to wreck that sluice gate?"

"Plumb shore!" came the prompt answer. "Yuh dirty low-down Gila!"

ARE YOU Miserable?

WOMEN who suffer periodically, who may have side-ache or headache, and those about to become mothers, will find Dr. Pierce's Favorite Prescription a dependable tonic. Read what Mrs. Amy Taylor of Madison, Wis. says: "I was so miserable some years ago, suffering from pains and headaches, and I was so nervous and nervous that I was unable to do any work. I used Dr. Pierce's Favorite Prescription and it built me right up so that I came through with my little baby as if I were a champion. Buy now! New size, 50 cents. Liquid \$1.00. Large size, 50 cents. Liquid \$1.50."

Natural Bran

MAKES YOUR BAKING BETTER

With Quaker Natural Bran you get that real, spicy, nutty flavour... the flavour that makes bran dishes so delightful, so tempting. And because it is natural bran, Quaker mixes better, rises lightly and, all 'round, gives you better baking results.

Quaker Natural Bran is healthful, too, for every member of your family. It helps rid the system of impurities naturally, gently and without irritation. Serve bran foods often... you'll find with Quaker Natural Bran, they're surprisingly economical.

There's a folder of delicious bran recipes and the valuable coupon in every package. Order your supply now.

QUAKER Natural Bran

SINCE I'VE BEEN BAKING WITH QUAKER Natural Bran, JOHN, AND THE BOYS TOO, JUST LOVE BRAN DISHES. IT'S SO GOOD FOR THEM!

I FIND IT MUCH EASIER TO USE... RESULTS ARE BETTER TOO, IT MIXES SO EASILY AND RISES SO LIGHTLY!

IT MEANS A REAL SAVING TO BAKE WITH QUAKER Natural Bran... IT'S MADE ESPECIALLY FOR THE PURPOSE.

Look for the Quaker Natural Bran display at your grocer's. He has all the things you need for the delicious recipes included in the recipe folder to each package.

Wanted To Play Safe

Man Withdrew Charge Against Son Of His Barber

Herman Gersofsky, a New York factory owner, does not believe in taking risks. After he had had Joseph Sansone arrested on a charge of theft from the factory he decided, when the case came into court, not to proceed with the charge. The magistrate asked him to explain. "Well," said Mr. Gersofsky, "Joseph's father is my barber. Twice a week I sit in his chair and my throat is at his mercy. Nevertheless the magistrate decided to hold Joseph on a charge of theft."

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarier to Go

The liver is the most important of all the organs of the body. It is the great filter of the blood. It filters out all the poisons and impurities from the blood. It is the great storehouse of energy. It is the great source of life. It is the great source of power. It is the great source of strength. It is the great source of wisdom. It is the great source of knowledge. It is the great source of love. It is the great source of peace. It is the great source of joy. It is the great source of happiness. It is the great source of life. It is the great source of power. It is the great source of strength. It is the great source of wisdom. It is the great source of knowledge. It is the great source of love. It is the great source of peace. It is the great source of joy. It is the great source of happiness. It is the great source of life. It is the great source of power. It is the great source of strength. It is the great source of wisdom. It is the great source of knowledge. It is the great source of love. It is the great source of peace. It is the great source of joy. It is the great source of happiness. It is the great source of life. It is the great source of power. It is the great source of strength. It is the great source of wisdom. It is the great source of knowledge. It is the great source of love. It is the great source of peace. It is the great source of joy. It is the great source of happiness. It is the great source of life. It is the great source of power. It is the great source of strength. It is the great source of wisdom. It is the great source of knowledge. It is the great source of love. It is the great source of peace. It is the great source of joy. It is the great source of happiness. It is the great source of life. It is the great source of power. It is the great source of strength. It is the great source of wisdom. It is the great source of knowledge. It is the great source of love. It is the great source of peace. It is the great source of joy. It is the great source of happiness. It is the great source of life. It is the great source of power. It is the great source of strength. It is the great source of wisdom. It is the great source of knowledge. It is the great source of love. It is the great source of peace. It is the great source of joy. Mr. Anderson who walks with steel supports on both legs, was taken to the General Hospital by Stairs Ambulance and is under the care of Dr. H. A. Gibson. He was reported resting comfortably.—Calgary, Albertan.

A large congregation turned out to the Easter services at the Anglican Church on Easter Day. It was one of the largest at Easter time in the history of the Parish.

The church was beautifully decorated for the occasion by Mrs. Currie and some of her girls. The following contributed flowers and to them the grateful thanks of the rector is hereby conveyed. Mrs. Boyle (widow of the late C. J. Boyle) who never misses a giving flowers at Easter; Mrs. C. M. vie, Mrs. Cartwright, Miss Robins, Mrs. Arnott, Mrs. Sifton, and plants from Mrs. Casey, and Mrs. Belshaw. Many complimentary remarks were overheard about the beauty of the Altar etc.

Obituary

We regret to report the death of Mrs. Edith Elliott, who died from pneumonia, on April 9th, at the home of Mrs. Cowling, Crossfield.

For the past ten years Mrs. Elliott has been a teacher in a private school at Crossfield, and was much beloved by the children. She endeared herself to the whole community, wherever she went, and took a very active part in church activities. For some time she was Superintendent of Inverlea United Sunday School and President of the Ladies Aid. She held similar positions at other places of residence.

Mrs. Elliott was born in Northallerton, Yorkshire, England, in 1876, came to Guelph, Ontario, in 1880, and then to Lacombe, Alberta, in 1900. She made her home there until coming to Crossfield, except for a few years in Edmonton. She leaves to mourn her loss, three children, Mrs. Harold Danser of Forestburg, Mrs. Guy Randall of Lacombe, and one son, Hudson, at Cremona; two sisters, Mrs. A. P. Rainforth and Mrs. J. G. Elliott, of Clive; one brother, L. B. Rainforth, of Los Angeles.

Beautiful floral tributes were sent by friends and relatives.

"And when I've stemmed the stormy waves, and crossed Life's troubled sea, I'll see and know Thee as Thou art, and rest In peace with Thee."

And friends, dear friends, when it shall be That this low breath has gone from me, And round my bier ye come to weep, Let one most loving of you all, Say, "Not a tear must per her fall; He giveth Her beloved sleep."

A Tribute to

Mrs. Edith M. Elliott

The Easter lilies told a new sad story
Three days before the Happy Easter day.

When kind friends told me yours was now the Glory—
That you forevermore had gone away.

No more to you for comfort
We'll be going,
No more your kind words cheer and lead us on,

'Tis only right our tears are ceaseless flowing,
When now we know that you are really gone.

But still I know that with the new day's dawning
I'll hear again your dear voice gently say—

"Be brave, my dear, until your Life is waning.
For we will meet another Easter day."

And so, dear friend, we'll walk the path you followed.
Your memory, ever loved, will guide us on.

Some of your kindness, hope and patience borrowed,
Then when we meet—you'll say, "My dear, well done."—F.C.L.

Cards of Thanks

We wish to express our thanks to all those friends who showed their sympathy and kindness during our recent bereavement, also for the beautiful floral tributes sent.

Mrs. Elliott's family

Mrs. Wm. Ughart wishes to thank the Crossfield Old Timers Association, the Women's Guild and many friends for the gifts of flowers and fruit received during her sojourn in the Holy Cross Hospital, Calgary.
